WORK EXPERIENCE

BeIT-Solutions: Inter

02/2022– 03/2022

- I completed training courses in SAP S/4HANA, developing skills in ERP systems.
- I developed and implemented the website for the company AMI-SYS (currently BeIT-Solutions) using WordPress.

Addup: Intern

03/2023–07/2023

- I have developed multiple WordPress websites for different companies, adapting features to the specific needs of each client.
- I acquired skills in digital marketing and shared hosting management for the company's clients.
- I developed a QR Code creation and management platform using Node.js and Express, allowing the creation of personalized QR Codes (vCards, links, among others) and integrating analytical features to monitor views, geographic location, devices used and other relevant metrics.
